# **119 PRACTICAL PROGRAMS FOR THE TRS-80<sup>®</sup> POCKET COMPUTER**

**New techniques for getting  
the most from your computer's  
data storage and programming capabilities!**

**BY JOHN CLARK CRAIG**

# 119 Practical Programs for the TRS-80® Pocket Computer

by John Clark Craig

Now you can fully utilize the data storage and programming capability of your TRS-80 pocket computer, achieve a lot more programming power than you'd guess by reading the programmer's manual that comes with it! In fact, you can have useful, practical computer power at your fingertips wherever you are: job site, laboratory, classroom, or on the road.

This collection of software was created just for the TRS-80 pocket computer with programs covering a broad range of interests: statistics, numerical analysis, and finance to electronics and engineering. One is an all-purpose driver, or operating program, that makes it easy to run any of the others.

With this software, and the new programs you can write by following the same techniques, the TRS-80 pocket computer can be far more useful than you'd ever have imagined!

John Clark Craig is a professional computer programmer who has written a wide range of scientific, math, and business programs for different types of computers.
